Experience

October 2020 - August 2021

Graduate Teaching Assistant
Manchester Metropolitan University

Upon graduation, I was invited to return to the course as a Graduate Teaching Assistant. My role is to assist students with their projects and sketchbooks, mainly on a 1-1 basis.

December 2020 - Present

Freelance Maker
Dundas Digital

After completing my degree, I built my own laser cutter and am now offering design and manufacturing services in-and-around Manchester. I enjoy discussing clients' needs and helping to realise their ideas, using CAD and joinery techniques.

August - October 2021

10x10 Artist Mentor
42nd Street Mental Health Charity

Paired with a young person who attended the charity, my role as an artist mentor was to help them generate ideas and then create whatever they wanted. Our final piece was a painting that began to physically warp whenever someone got close.

Residencies & Exhibitions

2022

What a Joke!
AIR Gallery, Altrincham

iAtelier Artist Residency
Craft Council & Crafting Europe

2021

AIR Open 2021

Web Design
(HTML, PHP, JS) 

DIY 

Artist Statement

With the aid of electronic components and digital manufacturing techniques, Duggie Dundas is a designer and new media artist who creates machines and devices. As well as using design to find answers, Duggie invites his audience to ask questions, encouraging them to be curious. His aim is that they will rediscover the joy of playing and exploring - asking 'How does this work?' or 'What is that made of?'

Why does he do this you ask? Well, that's just encouraging him.
